

I am alarmed by an
unprecedented
attempt by a
broadcasting company
to use its free use
of public airwaves
to prompt a biased
political agenda.

Sinclair
Broadcasting has
decided to force
their stations to
air an anti-Kerry
documentary days
before the election.
Sinclair uses the
public airwaves free
of charge, and is
obligated by law to
serve the public
interest. Much is at
stake in this
election. The
electorate expects
to get news, not
editorial content
from their local
stations.

We count on the FCC
to protect our free
media and thus
protect our
Democracy.

Please intervene to
stop Sinclair from
stomping on fair and
balanced journalism.

Thank you.
